

## QUALITY, HEALTH, SAFETY & ENVIRONMENTAL POLICY STATEMENT

- Safety of the road-user and our staff is A-one+'s top priority. A-one+'s approach to Health and Safety is based on zero tolerance to unsafe working practices. Everyone in the A-one+ organisation is empowered to take action on safety related issues and every incident will be reported and investigated and corrective actions implemented.
- The A-one+ organisation is committed to the development and maintenance of the highway network within its control, with the application of a positive design culture that demands the highest levels of quality, safety, environmental management and risk mitigation in line with our customers requirements
- A-one+ is fully committed to protecting the health, safety and welfare of its staff, so far as is reasonably practicable. We also fully accept our responsibility for other persons who may be affected by our activities and to minimise the environmental impact of those activities. We will ensure that our statutory duties are met at all times.
- Processes and systems of work will be designed to take account of health, safety and environmental legislation and the requirements of National Highways Sector Schemes where appropriate and will be properly resourced and supervised at all times to reflect the company's commitment to comply with all applicable legislation and other requirements relating to its Health Safety & Environmental hazards.
- Suitable facilities and arrangements will be maintained for all A-one+ staff and their representatives to raise quality, health, safety and environmental issues.
- Everyone within A-one+ has a legal obligation to comply with statutory duties and utilise the established systems, practices and training that are provided, both for themselves and others.
- All A-one+ staff will be given appropriate information, instruction and training to deliver a high quality service to our customers, ensure the safe performance of all work activities and minimise the impact on the environment.
- A-one+ is committed to continually improve its quality, health, safety and environmental systems and performance to prevent work related ill health and accidents, and to effectively manage environmental impacts, waste and use of energy with the aim of preventing pollution and minimizing waste.
- In our approach to quality, and without in any way compromising any of the above health, safety and environmental policies, A-one+ will continually seek to operate lean and efficient business processes with fast cycle times and outputs that are right first time. We will be easy to do business with by structuring our operations first and foremost to meet the requirements of our Customers.
- This policy and our performance will be reviewed on an annual basis and as a result of this review Quality Safety Health & Environmental Objectives and Targets will be set for A-one+'s activities.
- A-one+ will make this policy available to its staff, stakeholders and other interested parties.
